PROFILE

Graphic designer working with small businesses and educational platforms in Baghdad, on logos and visual identities, promotional campaigns and social media content, in both Arabic and English. Trained in Adobe Photoshop and Illustrator at Makers of Baghdad, and holds a B.Sc. in Information Engineering from Al-Nahrain University, which adds web development and a practical sense of how a design behaves on screen.

GRAPHIC DESIGN EXPERIENCE

Freelance Graphic Designer Ongoing

Remote and Baghdad, Iraq

- Design logos and complete visual identities for small business pages, from the first brief to final asset files.
- Produce promotional posters, publications and advertising cards in Adobe Photoshop and Adobe Illustrator.
- Build educational content sets for teaching platforms, including Arabic display typography and social media layouts.
- Compose in Arabic and English, working to typography, visual hierarchy and colour direction.
- Turn loose client briefs into finished designs, and handle revisions to deadline.

TEACHING AND OTHER EXPERIENCE

Mathematics Teacher August 2026 to present

Abwab Educational Platform

- Teach mathematics in Arabic to primary and intermediate school students, explaining concepts at each student's level.
- Prepare and follow up lessons, exercises and assessments, and monitor progress to guide improvement.

Data Entry Specialist June 2024

Aran Education Center, Baghdad, Iraq

- Managed the input and organisation of student and course data into electronic systems.
- Prepared periodic reports for supervisors, using Microsoft Excel and Office tools to process data accurately.
